**Important Information for All Residents and Businesses:**

We encourage you to prepare for daily water service interruptions expected to last approximately 8 to 10 hours each day. Services will be reconnected each evening. During this period, Precision Utility, LLC, your district operator, will conduct flushing to enhance water quality and remove any residual of brown water in area. Residents, if you experience water quality issues, please open your outside spigot and let it run until you see you clear water.

For any questions or further assistance, please contact Precision Utility, LLC at 281-456-9825 or email [service@precisionutility.biz](mailto:service@precisionutility.biz).

We apologize for any inconvenience these temporary disruptions may cause and appreciate your cooperation and understanding as we work to improve our community's water system.

Thank you for your patience.

Sincerely,

Precision Utility, LLC  
Harris County Municipal Utility District No. 304
