Board of Directors
Harris County MUD No. 304

Manny Vadhar
Controller
Precision Utility, LLC

Sub: Water Loss on the morning of February 4th, 2025

The purpose of this notice is to provide clarification on the district wide loss of water that occurred this morning.

An authorized contractor came today to do a repair. There was a valve failure that cut off water to the district. Precision personnel were onsite in the district and able to restore water quickly to the district. We will be collaborating with the contractor to reschedule the repairs to the water plant.

A utility update will be sent once a date has been scheduled for this repair.

If you have any questions, please contact our office at your convenience.

Thanks,

Manny Vadhar
